Professor Shu Narumiya
President WCP 2018
Kyoto, Japan

Dear Professor Narumiya,

IUPHAR would like to express our deepest appreciation and gratitude for such a successful WCP 2018 in Kyoto. We take this opportunity to congratulate the Japanese Pharmacological Society and the Japanese Society of Clinical Pharmacology and Therapeutics for organizing such a successful congress. Under your leadership, the entire team did an excellent job of establishing a fantastic scientific program that attracted many scientists from all over the world, but also in making this congress a financial success.

In particular, we are overwhelmed and deeply appreciative that the Organizing Committee has decided to assign 78% of the surplus to IUPHAR. Our society greatly appreciates this generous contribution that will contribute considerably to the future work of IUPHAR. Please convey our sincere thanks to the Organizing Committee, JPS as well as JSCPT.

We look forward to our further fruitful collaborations.

With kindest regards,

Ingolf Cascorbi
IUPHAR President
